morsø

1400 Series

Morsø 1410

Constructed using the highest quality robust cast iron, this compact clean burning stove is the perfect heat source for smaller spaces. The sides of the stove embrace the squirrel logo synonymous with the Morsø brand.

Heat Capacity	60-90 m²
Maximum Efficiency	68%
Emissions	0.6 g/kg
Flue Dimension	Ø150mm

Key Features

- ✓ Interchangeable flue collar for top or rear venting, provides flexibility in placement
- ✓ Compact size with a powerful 6.8kW output making it ideal for small spaces
- ✓ Optional short legs that reduce the height by 150mm

Morsø 1440

Compact with traditional styling, the 1440 has an updated combustion system that delivers excellent efficiencies. With this system harmful particles and surplus gases are burnt off in the firebox, fulfilling the strictest environmental requirements.

Heat Capacity	60-90 m²
Maximum Efficiency	68%
Emissions	0.6 g/kg
Flue Dimension	Ø150mm

Key Features

- ✓ High-quality cast iron
- ✓ State-of-the-art combustion technology
- ✓ Reduced side clearances due to the convection side panels
- ✓ Ergonomic handle remains cool to the touch

Morsø 6143

A timeless favourite, the Morsø 6143 combines elegant Danish design with exceptional performance. Its sculptural form and quality craftsmanship make it a striking centrepiece, while delivering efficient, reliable heat for modern living.

Heat Capacity	80-100 m²
Maximum Efficiency	66%
Emissions	0.5 g/kg
Flue Dimension	Ø150mm

Key Features

- ✓ Log storage for convenience
- ✓ High-quality cast iron
- ✓ Unique combustion system that ensures a higher temperature in the firebox, allowing waste gases to be burnt off
- ✓ Cool touch handle

Morsø 6148

The Morsø 6148 pairs clean lines and concealed hinges with refined craftsmanship. Its cast iron construction and balanced design brings both timeless style and modern performance to any space. A perfect blend of form and function.

Heat Capacity	80-100 m²
Maximum Efficiency	66%
Emissions	0.5 g/kg
Flue Dimension	Ø150mm

Key Features

- ✓ Contemporary design with clean lines and hidden hinges
- ✓ Reversible flue collar for top or rear flue
- ✓ Optional external air kit
- ✓ Pedestal design provides a focal point in any room

7900 Series

Morsø 7900 Series

These high efficiency wood burners make a focal statement with the large curved front window and double-glazed glass to the sides. Small details are designed to delight, such as the polished stainless steel handle and easy close door, which slides into place with a soft click.

Heat Capacity	100-150 m ²
Maximum Efficiency	73%
Emissions	1.3 g/kg
Flue Dimension	Ø150mm

Optional Heat Storage System

The 7900 series is available with optional soap stone heat storage, which allows you to utilise the fire's heat more efficiently and enjoy the heat many hours after the last firing.

Available in either low or high top module, the low module having one heat storage stone and the high top three.

You control whether the heat from the stove's combustion chamber should be delivered directly to the room or stored in the stones.

Overseas model shown to demonstrate sample of heat modules.

Key Features

- ✓ Large panoramic windows on the front and sides for a 180° view of the flames
- ✓ Combustion technology using pre-heated air to produce higher temperatures
- ✓ Easy close door
- ✓ Optional heat storage banks that fit on top of any 7900 stove

Morsø 8643

Morsø 8643

The most powerful cast iron stove ever crafted by Morsø, the 8643 combines robust performance with refined Scandinavian style. This modern wood fire brings exceptional heat output, ultra-low emissions, and everyday convenience into one elegant package.

Heat Capacity	100-150 m ²
Maximum Efficiency	63%
Emissions	0.5 g/kg
Flue Dimension	Ø152mm

Key Features

- ✓ Large, exceptionally clean glass
- ✓ Ultra-low 0.5 g/kg emissions
- ✓ Advanced combustion technology
- ✓ Optional external air kit
- ✓ 38cm log capability

Morsø 8843

Morsø 8843

The Morsø 8843 is a powerhouse of warmth and efficiency. Crafted from cast iron and featuring advanced combustion technology, it offers extended burn times and exceptional heat output from one of the largest fireboxes in the Morsø range.

Heat Capacity	100-150 m ²
Maximum Efficiency	69%
Emissions	0.8 g/kg
Flue Dimension	Ø150mm

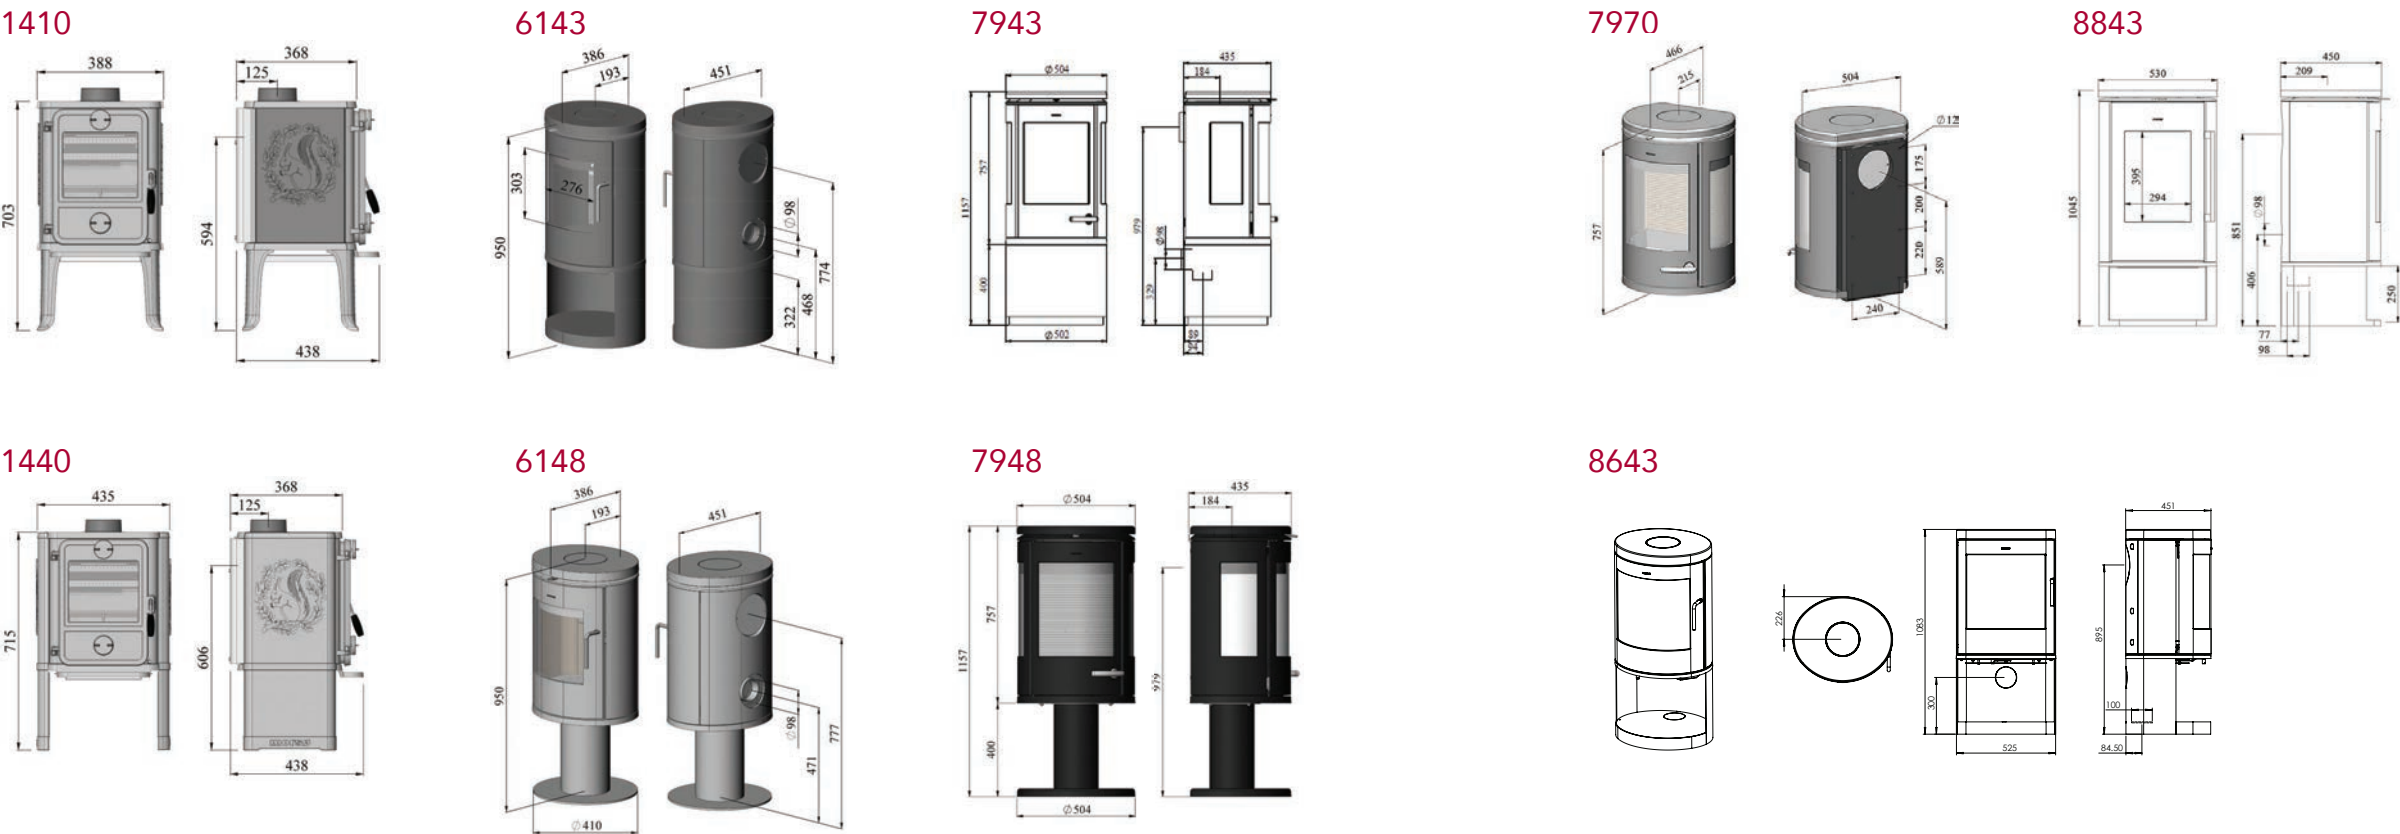

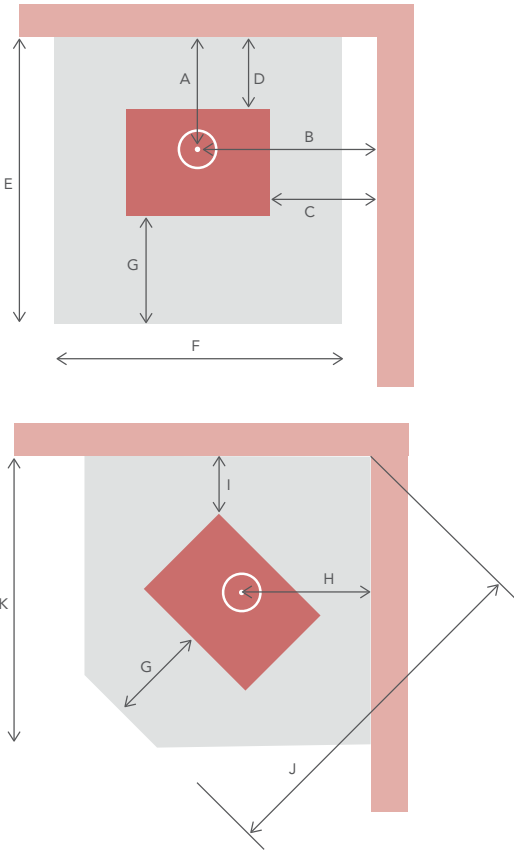

Key Features

- ✓ Cleverly engineered to use pre-heated primary air as well as secondary air for a clean burn
- ✓ Easy close door
- ✓ Open base for log storage
- ✓ Full length cool touch handle
